About Us

Ventvo, a premium brand from Silverstar Overseas, delivers trusted psyllium-based solutions across global markets. Our product line includes psyllium husk, psyllium powder, psyllium seeds, and kha-kha powder, all crafted to meet high purity and compliance standards.

Umang Mavadhiya
Global Business Head

Built on quality, innovation, and sustainability, Ventvo Group supports wellness through natural fiber products tailored for both food and non-food industries. With scalable infrastructure, export readiness, and a client-first approach, we're committed to being a reliable partner in every shipment — driving global health, trust, and growth.

Mission and Vision

➔ Mission

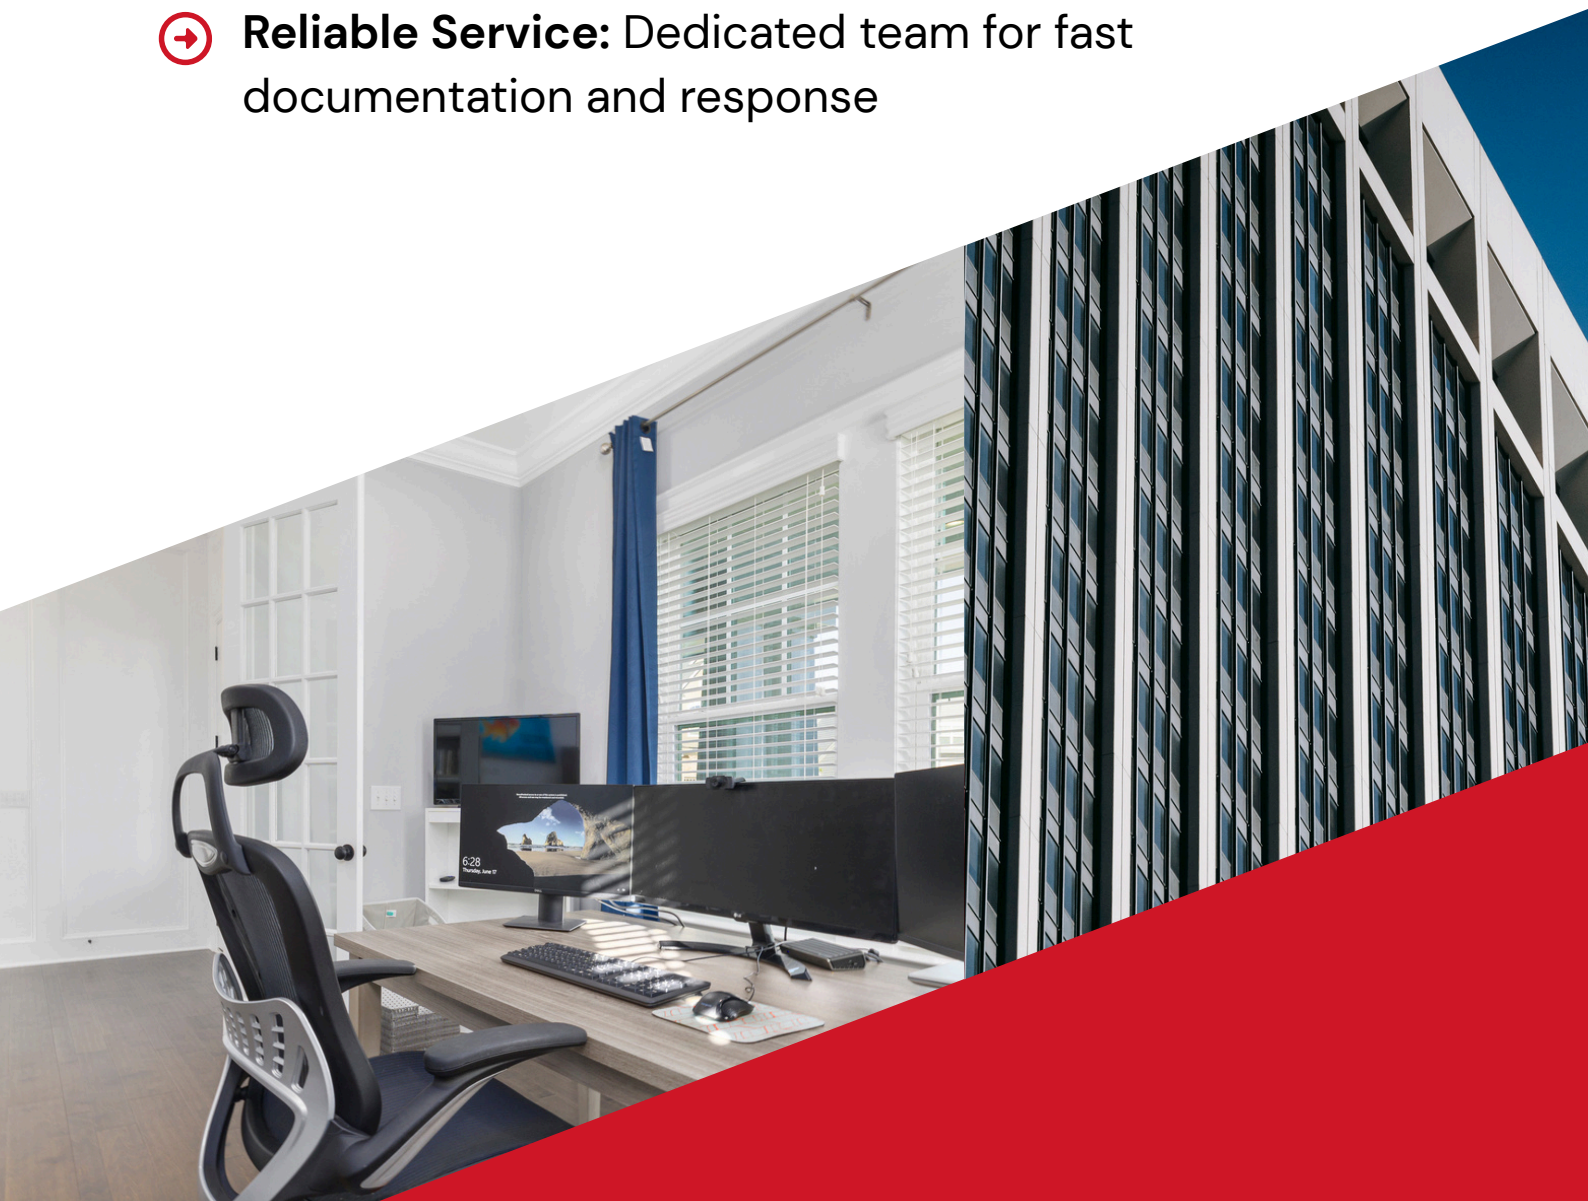

To provide high-quality psyllium products globally — supporting natural health, sustainable practices, customer satisfaction, and long-term partnerships.

➔ Vision

To become a trusted global leader in psyllium exports — driven by innovation, integrity, and a commitment to nature-powered wellness.

Core Strengths

- ➔ **Consistent Purity:** 85% to 99% grades with controlled moisture and swell volume
- ➔ **Customized Mesh:** Fine 40, 60, 80, and 100 mesh psyllium powder
- ➔ **Export Ready:** Expertise in stuffing, inspection, and labelling per market
- ➔ **Lab-Tested:** Each batch certified for microbiology, ash, moisture & fiber quality
- ➔ **Reliable Service:** Dedicated team for fast documentation and response

Psyllium Husk

Psyllium Seeds

Psyllium Seeds

Naturally harvested *Plantago Ovata* seeds, rich in mucilage content and known for their ability to absorb water and support digestive health.

➔ Specification

- Type: Machine-cleaned, dried
- Purity: 99%
- Moisture: Max 12%
- Color: Light to medium brown
- Foreign Matter: $\leq 1\%$

➔ Applications

- Raw material for husk extraction
- Dietary fiber supplements
- Cattle and poultry feed
- Herbal formulations

Psyllium Husk

The outer husk of psyllium seeds, processed to purity grades from 85% to 99%, known for high swell volume and gut-cleansing properties.

➤ Specification

- Grades: 85%, 95%, 98%, 99%
- Moisture: $\leq 10\%$
- Swell Volume: 35–70 ml/gm
- Ash: $\leq 4\%$
- Appearance: Creamy white, odorless

➤ Applications

- Pharmaceutical-grade laxatives
- Fiber supplements
- Baked and health foods

Psyllium Husk Powder

Finely ground psyllium husk processed to precise mesh sizes. Offers fast gelling, high water retention, and smooth texture — ideal for health supplements and pharma formulations.

➔ Specification

- Purity: 98–99%
- Moisture: $\leq 10\%$
- Swell Volume: ≥ 60 ml/gm
- Color: Off-white to cream
- Available Mesh: 40 Mesh to 100 Mesh

➔ Applications

- Capsules, tablets, sachets
- High-fiber nutritional drinks
- Gluten-free baking
- Ayurvedic and herbal blends

Kha-Kha Powder

A by-product of psyllium husk processing, this fibrous powder retains part of the seed coat. It's used widely in animal feed, pet care, and certain industrial fillers.

➔ Specification

- Mesh: 40 (custom available)
- Color: Light brown to greyish
- Moisture: $\leq 12\%$
- Bulk Density: ~ 0.6 g/cc
- Fiber Content: $\sim 65\text{--}75\%$

➔ Applications

- Livestock and cattle feed
- Pet nutrition
- Filler for construction, packaging industries

Packaging Options

We offer flexible packing solutions tailored for global markets:

➔ Bulk Packing:

- 25 kg / 50 kg PP woven bags with inner liner
- 25 kg kraft paper bags with inner poly liner

➔ Private Label / Retail Packing:

- 100 gm to 1 kg printed pouches
- Custom branding available

Certificates

Our products meet stringent international quality standards and comply with key certifications, ensuring trust, safety, and global market acceptance

Purity & Process

Sourcing Excellence

- Harvested from the finest psyllium cultivation regions in India.
- Selected from trusted farmers following sustainable agriculture practices.
- Ensured traceability from farm to final product.

Advanced Cleaning & Sorting

- Multi-stage cleaning to remove dust, husk impurities, and foreign matter.
- Optical sorting technology for color and size uniformity.
- Zero contamination policy to maintain 100% natural purity.

Precision Milling & Processing

- Custom mesh sizes, including fine 100 mesh powder, for diverse applications.
- Gentle processing to preserve natural fiber integrity and nutritional value.
- Temperature-controlled grinding to prevent nutrient loss.

Quality Assurance & Packaging

- Multi-stage cleaning, grading, and sieving for purity.
- Stringent lab testing for purity, moisture, and microbial safety.
- Hygienic, moisture-proof packaging to preserve freshness during export.

Benefits & Impacts

➔ Digestive Health Support

- Natural bulk-forming agent that aids regular bowel movements.
- Helps relieve constipation and mild diarrhea.
- Gentle on the stomach, suitable for long-term use.

➔ Heart & Metabolic Wellness

- Supports healthy cholesterol levels by reducing LDL.
- Helps regulate blood sugar when included in a balanced diet.
- Promotes cardiovascular health through improved lipid metabolism.

➔ Weight Management Aid

- Creates a feeling of fullness, reducing overeating.
- Supports calorie-controlled diets naturally.
- Low in calories, high in soluble fiber.

➔ Environmental & Sustainable Impact

- Plant-based, 100% biodegradable product.
- Sourced from eco-friendly and chemical-free farms.
- Supports rural farming communities and sustainable agriculture.
